

## FEATURES

### **Batch Toasting**

Toast 12 pairs of 4-inch bun each time.

### **Flexibly Control Temperature & Time**

The toasting temperature and time can be freely adjusted according to the different type of bun to achieve golden caramelization.

### **Even Toasting Temperature**

Double-layered nickel-plated aluminum heating plates ensure more uniform heating. When baking is finished, an indicator light will turn on, accompanied by an audible alert.

### **Easy to Clean & Worry-Free Maintenance**

Comes with Teflon paper to prevent sticking; dual-winged side panels can be rotated for easy cleaning and maintenance.

### **5 Different Compression Adjustments**

The heating platen height can be manually adjusted to ensure that various size buns can be toasted with the best result.

### **Longer Machine Lifespan**

Customized for frequent commercial use, equipped with high-temperature protection.

## Technical Specifications

Model Number	BT-SGM
Product Category	Batch Toaster
Product Dimension	W398mm x H275mm x D81mm (open)
Electric Parameter	Voltage: 208-240VAC Frequency: 50/60Hz Power: 1900-2540W Electrical Current: 9-10.6A
Shipping Weight	32kg
Heating Plate	Aluminum alloy A356, nickel-plated
Warranty	One year
Agency Listing	GB

For details about the materials required for installation, please refer to the Installation Manual.
